Linda Harper, MD—Lead Investigator
Robert Molpus, MD—Investigator
Michael Dever, MD—Investigator
Shawn Carter, PhD—Investigator
Patricia Brown, PhD, ARNP—Investigator/VP Clinical Ops

SITE CAPABILITIES

- Dedicated, independent research center located in Central Florida
- Over 3 million people in the area
- Experience in most therapeutic indications
- Phases 1, 2, 3, and 4
- Pediatric to Geriatric patients
- Serial ECGs and Serial PK sampling
- Ability to be an early start site with quick regulatory submission and 24 hour contract negotiation

RECRUITMENT

- Committed patient recruitment team including a full time community liaison
- Large database and referral network for all indications
- Face to face prescreen assessments
- Ability to track our return on advertising campaigns
- Mass texting and emailing for appointment reminders and notification of upcoming studies
- Patient verification system to prevent enrollment of professional patients
- Strategic alliance with local, medical multi-specialty groups

STATE OF THE ART OF FACILITIES

- Over 9,000 sq. ft. devoted to research
- On site lab with CLIA waiver
- Refrigerated and ambient centrifuges
- IV infusion room
- Temperature and alarm monitored drug room, sub-zero freezers, and drug refrigerators
- Biometric (fingerprint) access to drug room
- DEA compliant, dual-lock, bolted steel drug cabinets

TECHNOLOGY

- Fiber optic connectivity for security and data integrity
- Use of your own VPN on our dedicated high speed internet access for monitors and visitors
- Proprietary trial management software used for scheduling and tracking patient visits
- State of the art firewalls and 24/7 infrastructure monitoring services

REGULATORY/QA

- Dedicated regulatory specialist with prompt document turnaround time and strong working relationship with all Central IRBs
- Strong QA program with dedicated QA specialist and use of internal SOPs
- Numerous successful FDA and Sponsor audits for high enrollment

MONITORING

- 6 individual monitoring rooms each with a 2 person capacity
- Access to a phone, fax, copier, and high-speed internet

CLINICAL TRIAL EXPERIENCE

- Involved in over 350 clinical trials
- 59 drugs to market and counting
- Indications Include: Alzheimer's, ADHD, Addictions, Anxiety Disorders, Autism, Auto Immune Disorders, Cardiovascular Disorders, Dermatology, Diabetes, Diabetic Peripheral Neuropathy, Down Syndrome, Eating Disorders, Gastrointestinal Disorders, Influenza, Men's Health, Migraine, Mood Disorders, Obesity, Pain, Respiratory, Schizophrenia, Sleep Disorders, Vaccines, Women's Health, Smoking Cessation

PRINCIPAL INVESTIGATORS

- Over 200 years combined clinical and research practice, each with 10 to 40 years of experience
- 100% Investigator oversight; involvement in every visit with documented progress notes
- High inter-rater reliability across medical assessments (diagnostically and across symptom rating scales) and continuous training

COORDINATORS/SUPPORT TEAM

- 8 Study Coordinators (4 of which are certified Clinical Research Coordinators) each with over 10 years of research experience and 16 years of clinical experience
- All Study Coordinators are experienced Nurses and/or Master's level clinicians and certified raters on most scales
- Primary and back-up Study Coordinators dedicated to each trial
- Full time RN pre-screener
- Full time Data Manager and Phlebotomist, in addition to three full-time Research Assistants, as part of team
